

## August 2024 WRCF Meeting Minutes

August WRCF Meeting, 8/13/2024

Held at the flying field, 7 participants, convened at 6:50pm.

Bernie Baker – We currently have 50 paid members. Porta Potty rental runs \$100 / month. Field weed spraying cost was between \$400 and \$500.

Scott Kuhn – Have we decided to include a Shoot-A-Plane contest during the September Fun Fly? Tim Peters – Yes, we could use paintball, Nerf or gel blasters. Scott will supply the target plane.

Don Pieken – We have about 8 screw-in type ground anchors in the shed. Don will install them once the ground is a bit softer. The last storm flipped some stands, a table and one bench, but there was no damage fortunately.

Don Pieken – I would like to try a section of vinyl lattice material as an option to the orange fabric we now use on our safety fence. The lattice should be stronger and hold up better. It is sold in 2' by 8' sections. It would cost about \$1,000 to do the whole field. I would like to test a section to see how durable it would be. Tim Peters – We could try it on one of the shorter backstop sections.

Tim Peters – Bud Hall is this Saturday. The mowing crew will mow on Friday. Barry Rubin will provide lunch. We need help getting the grill out to the field. Don Pieken will move the grill using a mower and trailer. Mike Lawver will provide a large canopy. Tim Peters will put the road signs out. The University employees have been invited to join us.

Tim Peters – The safety / first aid field box is stocked and ready.

Dean Copeland – I have a 10' x 10' canopy I would like to donate to the club.

Tim Peters – I am planning to step down as President for next year. We will look for a replacement. The job is not very demanding.

Meeting adjourned at 7:25pm.
